

Workshop:

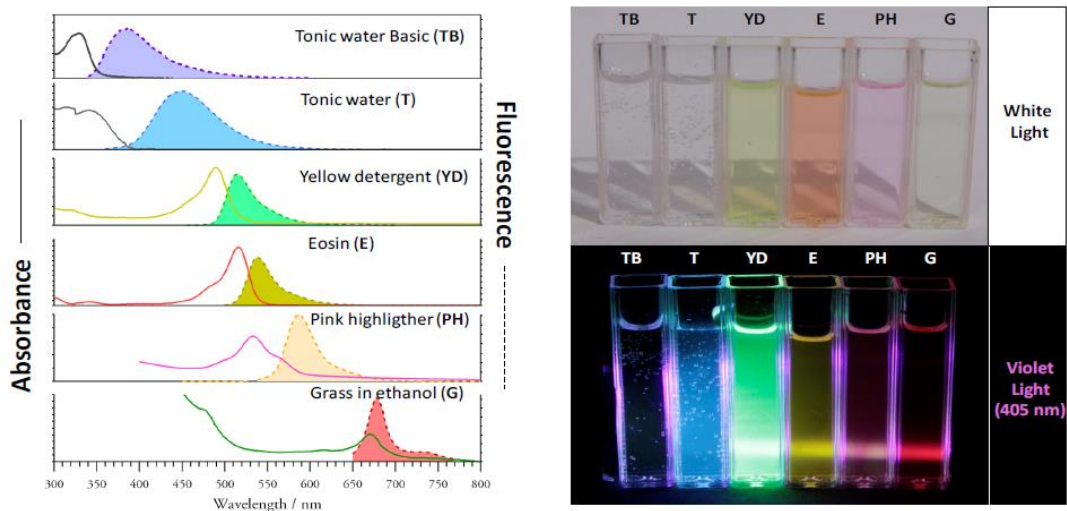

"Design experiments for teaching – from research to daily life"

For the LightDyNAMics Marie Skłodowska-Curie Actions Innovative Training Network

- 14.30 Teaching with daily life products – The case of daily life fluorescence
- 15.15 Question and answers from the participants
- 15.45 Pause
- 16.00 Transferring research to teaching - the case of photochromism
- 16.30 Question and answers from the participants
- 17.00 Conclusions

Lecturer: Dr. Jonathan Piard (ENS-Paris-Saclay)

Organizers: Dr. Jonathan Piard (ENS-Paris-Saclay)
Dr. James Green and Dr. Roberto Improta (IBB-CNR)

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 765266.
